A full-stack MERN web developer looking to take their first step into the field of software development. Open to working in any aspect of software development.

Thrives in structured environments wherein a clear goal or task is given. Very adaptable and prefers that efforts be responded to with constructive feedback so as to more quickly integrate into the team as a reliable coworker and teammate. Maintains an agile and earnest approach to learning and skills development, for both new and old concepts.

Technical Skills

JavaScript, CSS, HTML, Node, Express, React, MongoDB, SQL, MySQL, jQuery, Bootstrap, GitHub, MySQL Workbench, Insomnia, Visual Studio Code
